AirFirst™

DIY VIDEO REMOTES

AirFirst™ SaaS provides producers with do-it-yourself superior quality, lag-free on-demand workflows for high-speed, high-volume control of live remote contributors anywhere in the world. AirFirst supports multiple connection options allowing producers to easily, on the fly optimize any remote.

the **VCC**™

LET OUR TEAM HANDLE EVERYTHING

Working with the AirFirst™ platform, VCC's expert call producers mesh smoothly with your control room and production team to deliver optimized remotes from any device, anywhere. The VCC production services group works daily with some of the largest networks and producers, applying professional experience gained from bringing tens of thousands of IP video remotes to air.

INFINITE REMOTE POSSIBILITIES

There are almost 7 billion smartphones in the world, and every one of them is a powerful source of guest or contributor interaction. VCC enables producers to create broadcast-quality programs filled with dozens of live video callers. Connect with stars, experts, fans, reporters-no matter where they are.

the VCC™ by NEXTOLOGIES

The show must go on.
And our team is always ready.

Whether it's NBA TV halftime, the NFL draft, 24 hour news, or reality TV, VCC delivers the feeds you need to build the richest story possible. VCC has brought in broadcast-quality live remotes from over 36 countries.

VCC FEATURES

- Hyper-low latency, real-time return feed
- Mix-minus IFB that allows contributors to have natural dialogue
- First video for VIPs in as little as 20 seconds
- All achieved with a click on one link - no downloads, accounts or passwords
